Years of Industrial Design Function ... Industrial design is a process of design applied to products that are to be manufactured through techniques of mass production. A key characteristic is that design precedes manufacture: the creative act of determining and defining a product's form and features takes place in advance of the physical act of making a product, which consists purely of repeated, often automated, replication. Industrial design - Wikipedia Industrial design, the design of mass-produced consumer products. Industrial designers, often trained as architects or other visual arts professionals, are usually part of a larger creative team. Their primary responsibility is to help produce manufactured items that not only
