covered in ice and the bus starts sliding sideways. The two wheels on the left hit the curb on the far side of the intersection. bus rollover test - ANSYS Student Community Draw a line from the center of gravity of the bus to the the line connecting the edge of the tires. The angle of that line to vertical is the angle you have to tilt the platform to reach the critical angle. Beyond that, the bus will tip off the platform. Bimark9 Member bus rollover test — Ansys Learning Forum Rollover test simulations of three different finite element models have been carried out. Each model represents a body section of the whole bus. All these F.E. models have been assigned a mass of one third of the bus mass, so four point elements with the

necessary mass have been incorporated to each model. These mass points have been connected to the Development of a Numerical Technique for Bus Rollover Test ... The rollover test conducted by NHTSA subjects vehicles to a handling maneuver called a fishhook which is a term used for quick left-right turn at speeds ranging from 35 to 50 miles per hour. The operation is a simulation of the driver overdoing the vehicle steering usually happens during emergency situations. test of the MY 2000 45-foot MCI bus demonstrated that side window glazing can detach during the rollover structural integrity test and collapse into the passenger compartment. Based on an assessment conducted in the agency's research to enhance emergency evacuation (the third action item in NHTSA's 2007 Approach to Motorcoach Safety), side windows in buses can weigh as much as 84 kg (185 lb). Equipment ... Abstract. The main objective of the presented study was to compare the effectiveness of two standard test procedures for evaluating bus roof integrity: the dynamic rollover test according to UN-ECE Regulation 66 (ECE-R66), and the quasi-static symmetric roof loading according the Federal Motor Vehicle Safety Standard 220 (FMVSS 220). Effectiveness of ECE R66 and FMVSS 220 standards in ... You arrive on the scene where a school bus has been hit by a train.
