individuals took GM’s successful crate engines designed for the street and adapted them for circle track applications. The potential for cost savings was tremendous. Based on the success of those racers, GM Racing and GM Performance Parts engineers spent time in 2001 developing several circle track engine packages based on their proven small block Chevy crate engines. That development led to 3 engines released in 2002: (88958602, 88958603, and
