Formulation in Psychology and Psychotherapy: Making sense ... Formulation in psychology and psychotherapy: Making sense of people's problems. Formulation is attracting an increasing amount of interest in the fields of psychology, psychiatry, psychotherapy and counselling. Drawing on psychological theory, it attempts to examine a client or family's problems in terms of how they arose and what may currently be holding these in place. Formulation in psychology and psychotherapy: Making sense ... Synopsis. Formulation is attracting an increasing amount of interest in the fields of psychology, psychiatry, psychotherapy and counselling. Drawing on psychological theory, it attempts to examine a client or family's problems in terms of how they arose and what may currently be holding these in place. It synthesises this information and explanatory ideas into 'working hypotheses', which are then used to suggest appropriate and effective ways of working to relieve the problems. Formulation in Psychology and Psychotherapy: Making Sense ... The second edition of Formulation in Psychology and Psychotherapy is a thoughtfully constructed text that will be useful for graduate

students, academics, and mental health professionals who want clear, detailed, and theoretically diverse ways of understanding the process of clinical formulation.' Formulation in Psychology and Psychotherapy: Making sense ... Formulation is considered to be the core skill of the profession of clinical psychology, and also appears in the regulatory requirements for counseling, health, and forensic psychologists (Health Professions Council, 2009). Psychological Formulation as an Alternative to Psychiatric ... This is a Psychology Tools case formulation (case conceptualization) diagram. Put simply, case formulation is one method of a client and therapist coming to shared understanding of a difficulty. The formulation contextualizes the difficulty, making its origin and maintenance understandable. Friendly Formulation - Psychology Tools A psychodynamic formulation would consist of a summarizing statement, a description of nondynamic factors, description of core psychodynamics using a specific model (such as ego psychology, object relations or self psychology), and a prognostic assessment which identifies the potential areas of resistance in therapy.
