Metadata Editor is an application dedicated to the preparation of a metadata set according to national and international standards. As such, metadata editor becomes a software tool for the implementation of the EU INSPIRE Directive. Applications for Creating and Publishing Geoinformation ... According to Article 5 (1) of

INSPIRE Directive 2007/2/EC,

Member States shall ensure that metadata are created for the spatial data sets and services corresponding to the themes listed in Annexes I, II and III, and that those metadata are kept up to date. Metadata | INSPIRE INSPIRE is "an EU initiative to establish an infrastructure for spatial information in Europe that is geared to help to make spatial or geographical information more accessible and interoperable for a wide range of purposes supporting sustainable development ". The INSPIRE directive lays down a general framework for a spatial data infrastructure (SDI) for the purposes of European Community environmental policies and policies or activities which may affect the
