

Head And Neck Exam

pdf free head and neck exam manual pdf pdf file

Head And Neck Exam Examination of the head and neck is a fundamental part of the standard physical examination. It is typically one of the first parts of the physical examination and is performed with the patient in a seated position. Because the complete head and neck examination is lengthy, it is usually tailored to the patient's history and presenting complaint. In adult patients, the parts of the examination dealing with the ears and nose are generally not required unless there is a pertinent complaint. Head and neck examination - Knowledge for medical students ... Exam from behind the patient is described below: Stand behind the patient and place the middle three fingers of either hand along the mid-line of the neck, just below the chin. Head and Neck Exam - University of California, San Diego A head and neck self-exam is an opportunity for you to get to know your body and what's normal for you. Repeating this exam monthly can help you identify any changes that should be examined by a doctor or dentist. Follow the four steps below and look for abnormal, irregular or discolored areas. Compare one side to the other for symmetry.
