Provided development assistance on a production website that has on average 1000 visitors per day. Worked with HTML, JS, CSS, and WordPress. Created documentation for end-users, and system ... Christian Amaya - Software Development Analyst - Mercury ... Behavior-driven development (BDD) is a process that was born out of Test-driven development (TDD). BDD involves organizing tests such that their behavior is tested, rather than their implementation. When designing these types of tests, think, "How can I describe, in sentence form, what this code does and what I should expect from it."
