Towards A General Theory
Of Toward a General Theory of
Action is an extremely ambitious
formulation of the ingredients,
dimensions, and ranges that
determine human behavior. Parsons
and Shils enunciate principles that
are at the core of contemporary
social science preoccupations-
including the precarious balance
between social integration and
conflict. Toward a General Theory of

... The aim in this paper is to move towards a general theory by producing a more comprehensive model, not by enumerating all phenomena and unifying all possible theories. Finally, while sensitivity to theory and awareness of its diverse forms and purposes is a normal part of the training of social scientists, the integration of constructs belonging to different theories is an under-explored problem of method [88].
